OBJECTIVE

I am ambitious and I am constantly striving to develop my academic and professional skills. I have a great curiosity to learn and explore the field of economics. I look forward to making a positive contribution to the tasks and projects that I will undertake during the cooperative training program. I aspire to gain practical experience through this program.

EDUCATION

Bachelor of Science in Economics
at Princess Nora bint AbdulRahman University. 2021 to 2025
GPA 4.37 out of 5

UNIVERSITY PROJECTS

- **Economic feasibility study for a raw rubber project**
(Economic feasibility)

My project won among more than 23 groups for the best project in the course, which relates to establishing a factory to recycle damaged car tires and turn them into rubber granules. A complete feasibility study was conducted and the most important sections were analyzed and discussed, such as legal analysis, organizational managerial analysis, market analysis, technical analysis, and financial analysis.

April 2024

- **Technology and its impact on kingdom of Saudi Arabia output**
(Econometrics)

The study was conducted using a multiple linear regression model to explore the relationship between technology and the gross domestic product of the Kingdom of Saudi Arabia. The study concluded a positive relationship between technology and economic production in KSA. Also using EViews to analyze the data, The study measured the impact of three independent technology-related variables on Saudi GDP: 1. Volume of machinery and electronic equipment exports 2. Number of Internet users in Saudi Arabia 3. Number of factories for computers, electronic, and optical products in Saudi Arabia

May 2024

- **Stock price analysis**
(Principle of finance)

I have conducted a comprehensive analysis of the stock prices of the Aldawaa Company for a year, and have identified the key factors influencing these price fluctuations. For this project, I relied on data extracted from the Saudi Exchange platform, which I analyzed using Excel.

May 2023

Through this project, I acquired advanced financial data analysis skills and formulated evidence-based strategic recommendations.

Skills

- Microsoft Office programs : excel , word , power points
- Excellent in using the EViews program
- Data analysis
- Financial analysis
- The soft skills: Critical thinking, Effective communication, Emotional Intelligence, and productivity and time management
- problem-solving
