## Objective:

An applied technical sciences program student specializing in electronics technician I am looking for an internship opportunity to reduce the gap between what has been studied at the university and the actual fields of work. I have excellent understanding of electronic tools and I aspire to train in an organization that can utilize my skills in electronics technician. Training begins with the start of the second semester January 12, 2025 and lasts for 15 weeks And the training ends on May 8, 2025.

## Education:

Princess Nourah University

Diploma' Degree in technical sciences program

Major: electronics technician

GPA: 3.94

Expected Graduation: 2025

## Skills:

- Understanding of optoelectronic components.
- Knowledge of digital communication and signal analysis and waveform interpretation.
- Understanding of microcontroller and microprocessor.
- Troubleshooting and fault analysis and testing measurement equipment.
- Proficiency in language C++ , and assembly for embedded systems.
- Familiar with Logic design tools and simulation software.

## Language:

- English/ Advanced
- Arabic/ Native

## Professional certificate and courses:

- Fiber Optic Technology and Internet Speeds
- Artificial Intelligence Fundamentals
- Building Security
