## SUMMARY

I am a recent graduate with a bachelor's degree in Information Technology-Cyber security track from King Saud University , looking for COOP training opportunity. I have extensive knowledge in information security practices such as **planning, analysis, design, development, testing, and deployment**. I am particularly interested in the fields of cyber security analysis and incident response activities . I am also eager to apply my knowledge and skills in IT in general in a practical work environment.

---

## EDUCATION

### Bachelor of information Technology -Cyber Security track

- King Saud University
- GPA 4.08 out of 5

09/2020 – 12/2024

Riyadh, Saudi Arabia

---

## PROJECTS

### Shayek website

Graduation Project

Arabic platform that hosts news outlets with an integrated classification model to distinguish between authentic and manipulated videos , applies advanced AI techniques to build the system that effectively detects manipulation . Users are able to submit videos through the system to analyze them and verify their authenticity and have the ability to post news and articles with the result of the system to support them.

---

## ACTIVITIES

### Membership in the KSU\_CybersecurityClub

In Events Committee

- involved in an awareness initiative for some schools in Riyadh to present a campaign on social engineering attacks (training other members through a live demonstration of a digital attack using available toolkit on Linux systems).
  - a visit to the National Cybersecurity Authority (NCA) to learn about its key activities and responsibilities.
-
