SUMMARY

Motivated Senior Data Science Student with a strong foundation in statistical analysis, machine learning, and data visualization. Seeking a challenging role to apply technical skills to real-world problems and contribute to innovative solutions. Proficient in Python, R, SQL, Power BI ,and popular data science libraries. Proven ability to extract meaningful insights from complex datasets, build predictive models, and communicate findings effectively. Eager to leverage academic knowledge and practical experience to drive data-driven decision-making.

RESEARCH AND PROJECTS EXPERIENCE

Machine Learning Project (Visit Saudi) - Python , VS Code , Streamlit , GitHub

Develop a machine learnin-powered web application to recommend the ideal travel time for tourists visiting cities in Saudi Arabia.

Business Intelligence Project - Power BI

Developed a comprehensive dashboard to gain insights into various human resource aspects within an organization.

Project Management - Gantt Chart , Project Charter , Scope Statement, RACI

Applied project management principles throughout all the 10 knowledge area, to deliver a comprehensive blackboard application.

COURSES

Database foundation - Oracle Academy
Spark Fundamental - Cognitive Class Powered by IBM
Hadoop 101 - Cognitive Class Powered by IBM
MapReduce and Tarn - Cognitive Class Powered by IBM

EDUCATION

Bachelor Of Data Science and Analysis   **2021-2025**

Princess Nourah bint Abdullrahman University
- GPA 4.72/5

TECHNICAL SKILLS

- Python.
- Microsoft office proficient.
- project Management.
- Rstudio software.
- SQL.
- Power BI.

SOFT SKILLS

- Self development.
- teamwork and Collaboration.
- Creativity.
- Flexibility and Fast learner.
- Motivated
- Fluent in English and Arabic.
