### SUMMARY

---

As a graduate with a Bachelor's degree in Business Administration with a focus in Financial Economics, I have gained a deep understanding of the complex workings of financial markets and systems. Through rigorous coursework, I honed my analytical skills, enabling me to assess risks, analyze trends and make informed decisions in the dynamic world of finance. This degree has provided me with a solid foundation in economic theory, financial modelling, and strategic management, and provided me with the tools needed to succeed.
