PROFILE

As a computer science student, I am passionate about using technology to drive innovation and solve complex problems. My programming and data analysis expertise allows me to approach challenges with a blend of creativity and analytical thinking. I thrive in diverse environments and enjoy collaborating to create impactful solutions. I am eager to contribute to projects that lead to positive change and meaningful outcomes.

EDUCATION

Diploma degree of Information Technology   2016 – 2017
intech institute of technology   Brisbane, Australia

"I completed a diploma in Information Technology, gaining a solid foundation in programming, database management, and network systems. This hands-on experience equipped me to develop software applications, manage data, and troubleshoot network issues, preparing me for real-world IT challenges."

Bachelor degree of computer science   2019 – present
Saudi Electronic University   Riyadh, Saudi Arabia

COURSES

English Language Programs   03/2016 – 09/2016
Queensland University of Technology (QUT)   Brisbane, Australia
