Profile

A graduate in Industrial Engineering background, seeking a full-time role in a leading organization. Excited to apply and improve my analytical abilities and academic knowledge in a variety of professional contexts. Committed to contributing to innovation and efficiency while continuously expanding my experience.

Education

Bachelor of Science in Industrial Engineering, King Saud University 08/2019 – 03/2025
Riyadh, Saudi Arabia

- GPA: **4.48/5.0** (Second Honors)
- Senior student with a strong academic record and a focus on operations management, process optimization, supply chain management and project engineering.

Professional Experience

Assistant Project Manager, Creative Production 03/2023 – present

- Assisted in managing **20+** projects, overseeing project timelines and deliverables.
- Coordinated photographers and managed projects, ensuring smooth operations and client satisfaction.
- Directed a theatrical stage project, ensuring creative vision and execution.
- Experienced in photography and videography, specializing in shooting, editing, and creating content for advertisement shoots, including contributions to content writing and production.

Branch Manager, Swiza Bakeries and Sweets 02/2017 – 01/2019

- Developed key operational and customer service skills through hands-on experience in a bakery and sweets factory.
- Developed sales and operational strategies in business meetings with the owner
- Worked from salesperson to Branch Manager, interacting directly with customers and gaining a deep understanding of their needs.
- Developed a comprehensive understanding of the business by participating in different aspects of its operations.

Projects

Industrial Engineering projects 2021 – present

- Contributed to over **15+** projects in industrial engineering, focusing on areas like project management, process optimization, operations, data collection, and quality improvement. Improved timelines, resource allocation, and drove cost reduction efforts across different projects.

Volunteering

Industrial Engineering Club in King Saud University 2022 – 2023

Assisted the logistics department in resource allocation, organized external courses and workshops, and coordinated room assignments for **60+** credit hours, enhancing the overall experience for students in the Industrial Engineering faculty.

courses

English language intensive course, EF STANDARD ENGLISH TEST 07/2019 – 08/2019
