SUMMARY

I am an Economics student at Imam Mahammad bin Saud University, passionate about learning and developing my academic and practical skills. Throughout my academic journey, I have gained experience in using economic analysis tools such as Microsoft Excel and EViews, which have enhanced my abilities in data analysis and evidence-based decision-making. Additionally, I have practical work experience where I developed skills in planning leadership and teamwork. I am seeking a cooperative training opportunity that will allow me to apply what I have learned in a professional environment that encourages continuous development. I aspire to make a valuable contribution to the team I will be working alongside.
