ABOUT ME

A Software Engineering student at King Saud University with a passion for technology and problem-solving. Skilled in programming, project management, and teamwork. Currently seeking a cooperative training opportunity to apply my knowledge and develop my skills in a professional environment.

PROJECTS

- **Hosna**

"Hosna" is a blockchain-based app that ensures transparency and security in donations. It allows donors to vote on how funds should be allocated if a project fails, enhancing trust and accountability. It offers a simplified, fast donation process with clear, easy steps.

- **Achiva**

"Achiva" is a goal-tracking platform that combines goal management with social networking, offering features like progress sharing, reminders, and a ranking dashboard to boost motivation and accountability.
