## Profile

I am an Information Technology student specializing in AI and Data Science at King Saud University. I have a strong interest in Data Science and Machine Learning and am eager to apply my knowledge in these fields through a cooperative internship. I am enthusiastic about the opportunity to continuously learn and develop my skills in a practical work environment, with the goal of further improving and expanding my expertise.

## Education

| | |
|---|---|
| 2021 – 2025 | **Bachelor's degree in Information Technology** <br> *King Saud University* |

## Projects

**CultureLens**

*Graduation Project*:

 is a web-based app that assesses socio-cultural values and views in multilingual models. It helps users evaluate the performance of large language models (LLMs) and chat tools  by providing a means to evaluate the multilingual language models through a robust dataset that reflects cultural norms and perspectives from diverse regions.

**Predicting Employment Outcomes for University Graduates**

Performed an Comprehensive analysis of LinkedIn data to uncover key factors influencing the time it takes university graduates to secure their first job. The project offers valuable insights for students to enhance their employability by refining their LinkedIn profiles and implementing strategies to improve their chances of obtaining job opportunities efficiently.
