SUMMARY

As an Information Technology student, I aim to apply my skills in innovative tech projects and contribute to solving technical challenges. My focus is on enhancing cybersecurity, data analysis, and software development to improve efficiency and performance

PROJECTS

- **Riyad Bank+ — Developed the “My Expenses” feature for Riyad Bank**
- **WBS, Gantt Chart, Risk Register, Project Charter, Scope Statement**
 - Users can input their salary and set percentage limits for different categories (e.g., 30% for dining)
 - The feature helps users track and manage monthly expenses
 - If spending exceeds the set limit, the app sends a notification
 - A visual chart displays the user’s spending patterns
- **Mommy Moments — Created an app to meet the needs of pregnant women**
- **UML diagram , Architecture diagram , context diagram**
 - The app tracks the estimated size of the baby and provides an approximate due date
 - Allows users to book appointments and communicate with doctors
 - Offers healthcare tips throughout the pregnancy
- **Heba — Developed an app designed to encourage blood donation**
- **interface design**
 - Users can choose to donate either at a hospital or at home
 - The app simplifies the process of finding a donation location
- **Cruises Boarding Management — Developed a system to manage passenger and crew details during cruise voyages**
 - The system records information about passengers, crew members, the ship, the captain, and boarding passes.
 - Tracks the cruise arrival date, counts passengers, and assigns baggage numbers.
 - The system was implemented using SQL

EDUCATION

- **Princess Nourah Bint Abdulrahman University | Saudi Arabia | 2021— Present**
 - Bachelor's degree of Information technology
 - GPA: 4.56 out of 5

SKILLS

- **Technical Skills**
 - Proficiency in Microsoft Office Suite
 - Proficient in SQL And JAVA
 - Software Development
 - Project Management
 - Administrative support
- **Soft skills**
 - Data Analysis
 - Analytical Skills
 - Problem Solving
 - Strategic planning
 - Communication
 - Time management

COURSES

- Database Foundations — ORACLE
- CCNAv7 — CISCO
- Azure AI Fundamentals — Microsoft

OTHER

- **VOLUNTEERING**
 - Information Technology Club: Quality and Development | Princess Nourah Bint Abdulrahman University
 - Volunteer Developer with AI – ChatGPT | Princess Nourah Bint Abdulrahman University
- **LANGUAGES**
 - English / Arabic
