OBJECTIVE

Ambitious senior IT student with a strong academic record (GPA: 4.52/5) and expertise in programming, cybersecurity, software development, and networking. Certified in CCNA and Security+, eager to contribute to an innovative IT environment through a Cooperative Training opportunity that supports professional growth and practical skill application.

EDUCATION

Bachelor of science | Information Technology
Princess Nourah Bint Abdulrahman University
GPA: 4.52/5.
Expected Graduation: June 2025.

PROJECTS

- **encryption and decryption algorithm:** Implemented a Java encryption and decryption algorithm using an S-box with character-to-binary mapping.
    Tools: Java.
- **Fingerprint Biometric Recognition Model:** Implement a fingerprint biometric recognition model for user identity verification. The system processes fingerprint images to extract unique features that serve as identifiers for individual users.
    Tools: MATLAB.
- **Educational Website Interface:** Design an educational website interface features a clean, user-friendly design with a search bar, course cards, and intuitive navigation to enhance the learning experience.
    Tools: Proto.io

SKILLS

- Java Programming Language.
- Assembly Programming Language.
- MATLAB.
- Packet Tracer.
- HTML, PHP, CSS, JavaScript.
- SQL.
- Communication Skills
- Teamwork.
- Problem-solving.
- Time Management.
- Microsoft Office.
- Leadership.
