📍 Mecca, Saudi Arabia

## SUMMARY

Analytical and experienced in statistical analysis, machine learning, and data engineering. Skilled at interpreting complex datasets to drive business improvements through predictive modeling and data mining. Passionate about leveraging data-driven insights to solve challenging business problems and support strategic decision-making. Seeking opportunities to apply my expertise in data analysis and predictive modeling in a dynamic, impact-driven environment.

## EXPERIENCE

Vocational training 08/2024 - Present  
BSF

## EDUCATION

Data Science 08/2022 - Present  
Umm Alqura University - Bachelor's degree

## CERTIFICATES

Data Analysis 09/2024 - 09/2024  
Takad Technology Association

Data Analysis Using Excel 05/2024 - 05/2024  
Al Masar Professional Training Center

## SKILLS

- Hard Skills: Detailed Data Analysis, Data Extraction and Cleaning, Data-Driven Decision Making, Advanced Predictive Modeling, Machine Learning Algorithms.
  - Data Visualization: Excel, Power BI.
- Programming languages: Python, SQL, R , Java.
  - Soft Skills: Continuous learning, Problem-solving, Communication, Teamwork, Adaptability, Time management, Creativity.
