ABOUT ME

A dedicated and detail-oriented Computer Information Systems graduate from King Saud University, with a strong foundation in data analysis, database management, and system security. Actively engaged in diverse educational projects, refining technical expertise and problem-solving skills. My coursework provided a comprehensive understanding of database analysis, enterprise architecture, data structures, web development, and multiple programming languages. Passionate about applying analytical skills and technical knowledge to solve various challenges, optimize processes, and drive innovation in dynamic environments.
