Introduction

Saudi Arabia's vision for 2030 was to diversify and develop sources of income, reduce dependence on oil as the main source of income for the country, and chart the roadmap for a prosperous economy, sustained by sustained economic diversification. By stimulating private sector production and raising its contribution to GDP to 65%.

industry is one of the most important economic sectors that contribute to the development of the country and is a major source of income, especially if accompanied by the development of industrial exports. Industry is also one of the fields that contribute to the employment of many workers and thus reduce unemployment rates. In addition, some industries raise the level of productivity due to their use of technology, promotes development and innovation opportunities by raising the level of research and development in order to raise production efficiency and introduce new technologies in manufacturing and creating new products.

From this point of view, the General Authority for Statistics (GASTAT) sought to launch the annual Industrial Survey conducted in 2017. It is a new statistical product and the first detailed survey specified for industrial activities only. The survey aims at meeting the needs of the clients in providing detailed and accurate data that covers international recommendations regarding the industrial activity survey.

In order to achieve international and regional comparisons and to achieve the goals of sustainable development, the preparation of the survey form was based on the United Nations International Recommendations for Industrial Statistics in 2008. Taking into account most definitions, items and methodologies, using a team from the United Nations Industrial Development Organization (UNIDO) to provide technical support and enhance cooperation to achieve inclusive and sustainable industrial development. In addition, it will contribute in the extraction of industrial indicators for the purpose of creating a unified model for comparison between countries, assisting strategic planners in assessing their industrial development programs and planning for improvement, and enabling the private sector to be guided by these data in their investment decisions

> General Authority for Statistics (GASTAT) **General Administration of Industry and Business Statistics** Management of industrial statistics

Objectives

The survey aims at providing the largest possible industrial statistics related to the industry in different regions of the Kingdom, such as, statistics of industry workers and their compensation, operating and transformation expenses, production volume and industrial and non-industrial revenues. It also provides data on the size of research and development used in industry field, which gives indicators on the Saudi Arabia's interest in research and development. It is worth mentioning that the main purpose of the survey is to know the size of the industrial activity value added and the extent of its contribution to GDP.

Furthermore, the industrial survey data can help decision and policy makers to formulate their goals, including:

- Measuring the relative contribution of the industry activity to GDP.
- Providing detailed data on the industry sector.
- Showing the changes in production overtime.
- Provide data on workers in industrial activity by gender and nationality.
- Provide data on the amount of compensation paid to employees.
- Provide data on expenditure and operating income of industrial activity.
- 7. Identify the energy use of electricity, water and fuel.
- To know the extent to which the industrial sector contributes to research and development spending.
- Identify the challenges faced by enterprises operating in the industry.
- 10. Identify the types of investment plans for the facility.
- 11. Knowledge of the incentives and financing obtained by industrial establishments.
- 12. Meeting the needs of government agencies, the private sector and researchers for data and statistical information.
- 13. Conducting regional and international comparisons in order to know the kingdom's ranking in manufacturing.

The most important beneficiaries of industry activity statistics are:

- ✓ Government entities, primarily the Ministry of Energy, Industry and Mineral Resources
- ✓ Commercial Business community
- Researchers
- Audience

Key Definitions and Concepts

1- Industrial Survey

The industrial survey is a field survey in which statistical data on economic activities in the industry field are collected from a sample of selected industrial establishments according to the establishments framework in the Establishments Economic Survey. This data reflects the characteristics of economic units engaged in industry activity according to the International Standard Industrial Classification of All Economic Activities (ISIC, Rev.4) (United Nations, 2008c).

The industrial statistics in this survey represent all data pertaining to the economic activities working in the following areas:

- Mining and quarrying (Section B, ISIC, Rev.4).
- Manufacturing (Section C, ISIC, Rev.4).
- Electricity, gas, steam and air conditioning supply (Section D, ISIC, Rev.4).
- Water supply; sewerage, waste management and remediation (Section E, ISIC Rev.4).

2- Industrial Activity

It is all that is practiced or offered by the economic establishment under mining, quarrying, manufacturing, electricity, gas, steam, air conditioning, water supply, sanitation, waste management and remediation in all regions of Saudi Arabia. The classification of the establishments' economic activity is based on ISIC REV.4 with limited modifications to suit the institutions operating in Saudi Arabia.

3- Workers:

All individuals (Saudis and foreigners) who already work for the establishment with or without pay, as well as the owners, their affiliates and users, whether they are full-timers or part-timers, permanently or temporarily employed, males or females, whether they are paid on a daily, weekly or monthly basis.

Workers also include partners and members of joint-stock companies, board chairmen and members, as well as workers on paid vacations.

4- Raw Materials:

They refer to production inputs or crude materials used to manufacture products. Such unprocessed materials may be renewable or unrenewable.

5- Production:

A general term for all activities involved in providing commodities and services by way of converting inputs into outputs.

It is defined as the process of manufacturing raw materials to be consumables, such as commodities and services, in order for the establishment to make profit.

The production process is also defined as the movement of production elements movement through which the community needs are met. Actually, such operation has many phases starting from manufacturing of raw materials, through to the exchange, ending up with the consumption process.

6- Commodities:

They cover tangible merchandise of final consumption purchased by the consumer. They could be divided into durable and non-durable commodities.

Commodities could alternatively be defined as: "a set of benefits obtained by consumers to meet their needs."

7- Establishment status

It is filled in by the observer based on the status of the establishment during the survey, whether it is operating, closed temporarily or closed permanently. The status is coded according to the establishments' status guide.

8- Establishment characteristic

- Single: It means that the establishment has no branches.
- Head Office: It means that the establishment has at least one branch.
- A branch with independent accounts: It means that the establishment has accounts separate from the head office.
- A branch with no independent accounts: It means that the establishment does not have accounts separate from the head office.

9- Employees' payable remuneration in year (Thousand Riyals):

The due regular amounts paid by the establishment to its workers throughout the year, such as wages and salaries payable in consideration of the normal working hours, fixed bonuses together with all benefits and allowances such as accommodation, social insurance or transport allowances.... etc., including:

Wages and salaries:

They are all cash payments, which are paid regularly by the establishment to employees in return for their normal work hours as well as fixed premiums before making any cuts by the employer in terms of taxes and contributions by workers in the social insurance, pension systems, life insurance installments, union fees and other obligations of employees.

Benefits and Allowances:

Cash and in-kind payments that are made by the employer to the workers except for salaries and wages. Such payments include all sorts of bonuses and benefits, such as scholarships, education and medicine payments for the worker or his /her dependents, food and housing allowances, transport allowances and overtime ... etc.

10- Operating expenditure: (Goods supplies and services during the year (data are recorded in thousands of Saudi riyals):

Goods supplies and services which cover all payments made by the establishment to practice an economic activity, whether purchased in the same year or taken from stocks purchased in previous years, including:

Commodity requirements:

The values of all local and imported goods supplies used by the establishment either in productive goods installation (such as electricity, water and raw materials consumption), or the goods required for their production. It also includes the values of stationery, spare parts, fuel, oils, electricity and water consumption costs ... etc., or any other goods supplies with mentioning the types of such goods for necessity.

Service requirements:

The values of all service requirements that the establishment uses including maintenance and repair costs, contract work, post office and telephone costs, training and secondment costs, travel costs, machines and equipment rent costs, premises and non-agricultural lands rent costs, and what the establishment pay for legal consultations or for services provided by others ... etc., or any other service requirements with mentioning the types of such services for necessity.

11- Transformational expenditures:

Transformational expenditures refer to all paid or payable amounts by the establishment during the year in connection with the establishment current activity and not related to the goods and services requirements such as compensations, fines, dividends, insurance premium, Zakat, donations, customs duties ... etc., or any other transformational expenditures with mentioning the types of such expenditures for necessity. 12- Operating revenues (industrial and non-industrial):

All cash revenues earned by establishment as a result of providing services for consumers, including, revenues from contract and commission work, maintenance, repair and installation work. The operating revenues also include the revenues from secondary activities and the sales of goods purchased for the purpose of reselling them in in the same condition. This also includes revenues of selling manufacturing wastes and renting buildings, non-agricultural plots and machinery etc., and any other services provided to others.

13- transformational revenues:

It is all collected or due revenues of investments returns or projects profits, such as shares and participations profits, collected interests, capital assets sale profits ... etc., and which is not the output of the practice of the main economic activity or other secondary activities. It also includes governmental subsidies and donations offered by others, in addition to compensations collected from insurance ... etc., or any other transformational revenues with mentioning the types of such revenues for necessity.

14- Alteration in assets and liabilities:

Measuring the assets book value and the changes that may occur to the assets in the form of purchased additions, or from the own-production after deducting the sales, or the excluded assets and the annual depreciation value. The book value shall be registered at the begging and at the end of the year. First: Non-financial assets:

Non-financial assets are divided into main groups and secondary groups:

A. Fixed Assets (Productive Assets):

Refer to the assets owned by the establishment for conducting production operations, accomplishing its services, or for facilitating its business operations (and not for re-selling them), as the assets are kept as long as they are productive, such as properties and machines. These assets have some advantages: They are not usually used up in a sole one year. Additionally, they have the same way of evaluation and the same purpose. They are also funded similarly as they are usually funded by project owners, or by partially long term loans. The fixed assets are:

- Residential buildings.
- Non-residential buildings.
- Means of Transportation.
- Equipment of establishment.
- Equipment and machinery.

B. Fixed non-productive assets:

They are the assets that cannot be reproduced, and they include the following:

- Land
- Researches and studies
- Rent and licensing contracts
- Brand name

C. Inventory:

The stock consists of the products sold by the establishment as a commercial activity, or the raw materials the establishment utilizes in production process. This stock is one of the biggest assets in commercial and industrial establishments. The commercial goods of the establishments are often ready and do not need much work and service to be ready for sale. As for the industrial companies the case is different as these companies have different types of goods according to the stage goods go through till they reach the ultimate form as a good ready to be sold. There are the raw materials, the to-be-manufactured stock, and the finished products stock. These three items are demonstrated in detail in the budget, or as a group under the stock section. The stock is evaluated by cost or net market value. The stock section does not include goods deposited at the establishment for sale, and it is divided as follows:

Goods purchased for re-sale in the same condition.

- Raw materials, spare parts and packaging materials
- Finished products
- Non-finished products

Second: (Financial Assets) include the following:

- Deposits and cash balances in banks and the fund
- Securities The bonds
- It includes loans provided to others either long term or short terms loans.
- Stocks and shares
- Other account receivables

Third: Financial commitments:

They refer to the establishment financial commitments to others such as vendors, lenders, and owners. They include due commitments (payable notes, creditors, commercial vendors, and accrued expenditures). These deductions have a shared characteristic as they are usually used to fund current assets. As financial assets, financial commitments are likewise divided into main groups, and secondary groups, such as:

- Securities Commercial bonds and payable notes signed to vendors.
- Loans (including the creditors)
- Stocks and shares (Shareholders' equity)

15-Legal entity:

The company established in Saudi Arabia shall take one of the following form:

- Joint Venture Company
- Joint liability company
- Limited partnership LP
- Partnership limited by shares: it consists of two teams of partners
- Joint-stock company JSC
- Limited liability company LLC
- Other: any legal form that the company may take other than the above.

16- Share of ownership of capital:

The aim of this section is to identify the shares of the participated sectors by nationality for the capital, and total participations must be 100%.

17- Financial assets and liabilities by regulatory sector based on (the provider and the receiver)

- Non-financial projects: all the projects operating in all economic activities except for money and insurance.
- Financial projects: are the operating units in the financial intermediary services and other related services which include (banks, insurance, brokerage services, money exchange and other financial services

Survey methodology

1- Introduction

In order to meet client requirements who benefited from survey results, and to achieve the objectives of sustainable development, communication and consultation with the target clients were conducted in order to understand their needs of data and apply them to the survey form. Moreover, it was referred to the most important regional and international practices for the best practices. Additionally, it was based on the international recommendations in the stage of survey design, and referred to sustainable development indicators definition manual to ensure that indicators were covered in the survey form.

2- Survey form

Industry survey form included a set of questions classified into several main sections as follows:

- A. Questions about industrial establishments characteristics.
- B. Questions about employees' characteristics and compensations.
- C. Questions about operation expenses (commodity and service requirements used during the year).
- D. Questions about transfer expenses.
- E. Questions about production by commodity type.
- F. Questions about commodity exports by country.
- G. Questions about industrial and non-industrial operation revenues.
- H. Questions about transfer revenues.
- I. Questions about change in assets and liabilities.
- J. Questions about quality management.

3- Sample framework

Based on the establishments census data conducted by GASTAT in 2010, update the data in 2015 which considered the main framework to all economic activities, the industry survey sample was selected in representing the survey community in a statistical and unbiased manner.

Establishments engaged in industrial activity could be classified according to the International Standard Industrial Classification of All Economic Activities, forth version (ISIC4), as follows:

| | | , |
|---------|----------|---|
| Section | Division | Economic Activity Description |
| А | | Mining and quarrying |
| | 05 | Mining of coal and lignite |
| | 06 | Extraction of crude oil and natural gas |
| | 07 | Mining of metal ores |
| | 08 | Other mining and quarrying activities |
| | 09 | Mining support services |
| В | | Manufacturing |

| - | | |
|---|-------|---|
| | 10 | Manufacture of food products |
| | 11 | Manufacture of beverages |
| | 12 | Manufacture of tobacco products |
| | 13 | Manufacture of textiles |
| | 14 | Manufacture of wearing apparel |
| | 15 | Manufacture of leather products and related products |
| | 16 | Manufacture of wood and of products of wood and cork, except |
| | | furniture |
| | 17 | Manufacture of paper and paper products |
| | 18 | Printing and reproduction of registered media materials |
| | 19 | Manufacture of coke and refined petroleum products |
| | 20 | Manufacture of chemicals and chemical products |
| | 21 | Manufacture of pharmaceutics and basic pharmaceutical products |
| | 22 | Manufacture of rubber and plastics products |
| | 23 | Manufacture of non-metallic products |
| | 24 | Manufacture of basic metals |
| | 25 | Manufacture of fabricated metal products, except machinery and |
| | 26 | Manufacture of computer, electronic and optical products |
| | 27 | Manufacture of electrical devices |
| | 28 | Manufacture of equipment and not elsewhere classified products |
| | 29 | Manufacture of motor vehicles, trailers and semi-trailers |
| | 30 | Manufacture of other transport equipment |
| | 31 | Furniture industry |
| | 32 | Other manufacturing industries |
| | 33 | Repair and installation of machinery and equipment |
| D | | Electricity, gas, steam and air conditioning supply |
| | 35 | Supplies of electricity, gas, steam and air conditioning |
| E | Water | r supply; sewerage, waste management and remediation activities |
| | 36 | Water collection, treatment and supply |
| | 37 | Sewage |
| | 38 | Waste collection, treatment & disposal activities; materials recovery |
| | 39 | Remediation activities and other waste management services |
| | | |

1- Periodicity of the survey

Industrial Survey Report is conducted annually.

2- Data Source

Statistical data on industrial establishment are collected by using data collected from field surveys. Also, the establishments are classified by size class to the following categories:

- A- Micro-sized establishment employing (5-1) workers.
- B- Small-sized establishment employing (49-6) workers.
- C- Medium-sized establishment employing (50 249) employees.
- D- Large- sized establishment employing (250+) workers.

3- Coverage

Spatial coverage: Industrial establishments are covered in all administrative regions in Saudi Arabia by a sample drawn in a scientific manner representing the survey community.

Time coverage: The survey is conducted in Q2 each year.

4- Sampling unit

As the industrial establishment is the final sampling unit.

5- Sample Selection

When a random sample was selected from various industrial establishments in Saudi Arabia, the following steps were considered:

- A. All industrial establishments located in the survey scope employing 250 workers and more were included.
- B. All industrial establishments located in the survey scope employing 1-5 workers were included.
- C. Multi-stage stratified sample was used for other industrial establishments.

6- Data collection method

Data collection process was conducted using personal interview method that carried out by qualified and trained researchers and were supervised directly by the employees of GASTAT in all concerned regions and cities in Saudi Arabia through survey form.

7- Data collection instruments

In industrial survey, the field researcher uses the following data collection instruments:

- 1. Sending electronic forms to establishment via e-mail.
- 2. Using electronic tablets to collect data directly from data provider.
- 3. Use the self-interpolation method by the facility.

8- Used classification

Based on the International Standard Industrial Classification (ISIC) to encode all economic activities, Central Product Classification (CPC2), International Standard Classification of Occupations (ISCO) .

Tab lel1

Number of Industrial Establishments by Size of Establishment and Administrative Region 2017

Operating Expenses of Industrial Establishments by Economic Activity 2017

Expenditure on Research and Development of Industrial Establishments by Economic Activity 2017

Data (in Thousands of Riyals)

| | | Percentage of | Research and | Expenditure on |
|----|---|-------------------------|---------------------|----------------|
| | Economic Activity | establishments | | research and |
| | | conducting research and | Development workers | development |
| 1 | Mining of coal and lignite | 0.0% | 0 | 0 |
| 2 | Extraction of crude petroleum and | 18.2% | 434 | 1,283,047 |
| 3 | Mining of metal ores | 2.0 % | 1 | 193 |
| 4 | Other mining and quarrying activities | 5.6 % | 38 | 15,208 |
| 5 | Mining support services | 3.4 % | 52 | 6,096 |
| 6 | Manufacture of food products | 1.2% | 120 | 41,374 |
| 7 | Manufacture of beverages | 1.0 % | 26 | 6,468 |
| 8 | Manufacture of tobacco products | 1.0 % | 2 | 178 |
| 9 | Manufacture of textiles | 1.5% | 25 | 10,957 |
| 10 | Manufacture of wearing apparel | 2.0 % | 420 | 31,626 |
| 11 | Manufacture of leather products and | 3.0 % | 19 | 2,676 |
| 12 | Manufacture of wood and of products | 2.0 % | 107 | 25,360 |
| 13 | Manufacture of paper and paper | 5.0 % | 74 | 39,010 |
| 14 | Printing and reproduction of registered | 8.4% | 109 | 40,277 |
| 15 | Manufacture of coke and refined | 14.9% | 25 | 89,200 |
| 16 | Manufacture of chemicals and chemical | 12.9% | 61 | 66,344 |
| 17 | Manufacture of pharmaceutics and basic | 12.7% | 80 | 24,196 |
| 18 | Manufacture of rubber products and | 3.1% | 69 | 28,720 |
| 19 | Manufacture of other non-metallic | 2.7 % | 273 | 54,651 |
| 20 | manufacture of basic metals | 8.6% | 346 | 149,995 |
| 21 | Manufacture of fabricated metal | 1.6 % | 151 | 21,020 |
| 22 | Manufacture of computer, electronic | 7.8% | 15 | 3,045 |
| 23 | Manufacture of electrical equipmen | 6.6% | 120 | 79,560 |
| 24 | Manufacture of machinery and | 0.4% | 10 | 2,989 |
| 25 | Manufacture of motor vehicles | 10.8% | 56 | 15,920 |
| 26 | Manufacture of other transport | 0.0% | 0 | 0 |
| 27 | Manufacture of furniture | 3.0 % | 501 | 82,218 |
| 28 | Other manufacturing industries | 0.0% | 0 | 0 |
| 29 | Repair, maintenance and installation of | 7.9% | 413 | 31,315 |
| 30 | Electricity, gas, steam and air | 8.2% | 437 | 243,690 |
| 31 | Water collection, treatment and supply | 3.0 % | 18 | 1,055 |
| 32 | Sewage | 5.0 % | 78 | 9,619 |
| 33 | Waste collection, treatment & disposal | 0.3% | 11 | 151 |
| 34 | Remediation activities and other waste | 2.0 % | 1 | 12 |
| | Total | 4.9% | 4,092 | 2,406,171 |
| | | | | |

Industrial Establishments Incentives and Finance by Economic Activity 2017

| | | Percentage of establishme | Percentage of | |
|----|---|----------------------------|-------------------|-----------------|
| | Economic Activity | Duty exemption on machines | Duty exemption on | esta blishments |
| | | buty exemption on machines | raw materials | with finance |
| 1 | Mining of coal and lignite | 5.4% | 7.7% | 17.9 % |
| 2 | Extraction of crude petroleum and natural gas | 0.8% | 2.3% | 18.7% |
| 3 | Mining of metal ores | 3.9% | 11.2% | 6.5% |
| 4 | Other mining and quarrying activities | 2.8% | 11.9% | 7.1% |
| 5 | Mining support services | 0.9% | 8.5% | 1.6% |
| 6 | Manufacture of food products | 0.7% | 7.1% | 6.0% |
| 7 | Manufacture of beverages | 0.4% | 7.0% | 7.9% |
| 8 | Manufacture of tobacco products | 0.0% | 0.0% | 6.4% |
| 9 | Manufacture of textiles | 0.2% | 5.9 % | 12.5% |
| 10 | Manufacture of wearing apparel | 0.7% | 0.8% | 8.0% |
| 11 | Manufacture of leather products and related products | 1.3% | 4.0 % | 9.0% |
| 12 | Manufacture of wood and of products of wood and cork | 3.6% | 11.1% | 9.7% |
| 13 | Manufacture of paper and paper products | 4.6% | 3.1% | 7.3% |
| 14 | Printing and reproduction of registered media materials | 2.2% | 7.3% | 10.6% |
| 15 | Manufacture of coke and refined petroleum products | 2.0% | 7.1% | 17.4% |
| 16 | Manufacture of chemicals and chemical products | 2.1% | 7.7% | 18.8% |
| 17 | Manufacture of pharmaceutics and basic pharmaceutical products | 1.9% | 8.0% | 9.7% |
| 18 | Manufacture of rubber products and plastics | 3.8% | 11.7% | 12.2% |
| 19 | Manufacture of other non-metallic products | 3.6% | 11.4% | 4.4% |
| 20 | manufacture of basic metals | 5.0% | 0.9% | 17.3% |
| 21 | Manufacture of fabricated metal products (except machinery and equipment) | 5.2% | 3.0 % | 5.9% |
| 22 | Manufacture of computer, electronic and optical products | 3.4% | 2.8% | 6.6% |
| 23 | Manufacture of electrical equipmen | 1.4% | 11.8% | 5.1% |
| 24 | Manufacture of machinery and equipment not elsewhere classified | 5.8% | 11.8% | 11.0 % |
| 25 | Manufacture of motor vehicles | 0.2% | 10.5% | 4.2% |
| 26 | Manufacture of other transport equipment | 0.1% | 3.9 % | 19.1% |
